

KELLEYS ISLAND SCHOOLS FIELD STATION

FIELD GUIDE

A FUN-FILLED YEAR AHEAD!

The Kelleys Island Field Station is buzzing with excitement as we prepare for another engaging year of hands-on learning and outdoor fun for all ages. From curious preschoolers to lifelong learners, our programs are designed to connect people with nature, science, and the unique environment of Kelleys Island.

This year's lineup includes the return of our beloved **Nature Camp**, where young explorers dive into island ecology through themed days, hands-on activities, and visits from expert educators.

Science Saturdays will once again offer interactive programs for families and community members, making science approachable, fun, and rooted in the natural world around us.

One of our sweetest traditions, **Pollinators and Pancakes**, will bring the community together to learn about the vital role pollinators play in our ecosystems—paired, of course, with a delicious breakfast.

Throughout the year, we'll also host additional programs, field trips, and special events that celebrate conservation, curiosity, and community.

We're also proud to kick off the third year of our **Camp Sponsorship Program**, which helps ensure that all children have the opportunity to participate in Nature Camp. Thanks to generous sponsors, we continue to expand access to meaningful environmental education for families across the Lake Erie region.

With a full calendar of learning, laughter, and outdoor adventure ahead, the Kelleys Island Field Station is ready for a fun and inspiring year—and we can't wait to welcome you!

NATURE CAMP

Spots fill quickly! Don't miss this chance to give your child a summer filled with discovery, adventure, and nature on Kelleys Island.

Sign up today and let your camper explore, learn, and grow at Kelleys Island Nature Camp!

SCIENCE SATURDAYS AND MORE!

Science Saturdays on Kelleys Island invite youth and adults to explore, discover, and get hands-on with science in partnership with **Kelleys Island State Park**. From learning about the island's fascinating geology with the **Ohio Geological Survey** to crowd-favorite events like **Pollinators & Pancakes** and a family-friendly **Fishing Tournament**, each program offers interactive experiences that connect people to Lake Erie's natural world. With engaging activities for all ages, Science Saturdays make learning fun while celebrating the unique environment of Kelleys Island.
